Portfolio

Education

2020 - 2024

Bachelor's Degree in Software Engineering

Mutah University

Courses & Certifications

2024 - Present

COURSES & CERTIFICATIONS
Full-Stack Web Development — Pathway

Technical Skills

- Languages: HTML, CSS, JavaScript, Python
- Front-End: React, Next.js, Tailwind CSS
- Back-End: Node.js, Express.js
- Databases: MongoDB, MySQL, PostgreSQL, Supabase
- Tools: Git & GitHub, NPM, Yarn, Figma
- Testing & QA: Manual Testing, Debugging, QA Practices
- Soft Skills: Problem Solving, Teamwork, Communication

Language

- Arabic:Native
- English :Good

MOHAMMED ABDALLAH
SOFTWARE ENGINEER

Professional Summary

Software Engineering graduate with hands-on experience in full-stack development using React, Next.js, Node.js, and Python. Strong skills in responsive UI design, API development, and quality assurance. Passionate about clean code, solving technical problems, and continuous learning.

Experience

Junior Full Stack Developer
2024 - Present

- -Developed and maintained full-stack web applications using React.js, Next.js, Tailwind CSS, and Supabase for backend authentication and database management.
- Translated detailed Figma UI/UX designs into responsive, reusable React components ensuring cross-browser compatibility and pixel-perfect accuracy.
- Built a Python-based banking simulation application featuring secure user authentication, transaction management, and real-time balance updates.
- Integrated multiple third-party APIs including email validation and authentication services; effectively resolved challenges such as CORS and token expiration via Express.js middleware and refresh token strategies.
- Implemented performance optimizations by introducing lazy loading, code splitting, and efficient state management, resulting in up to 35% faster page load times.
- Conducted rigorous manual testing and debugging, improving software stability and reducing reported bugs by 40%.
- Deployed applications to cloud platforms such as Vercel and Heroku, managing environment variables, SSL certificates, and continuous deployment pipelines using GitHub Actions.
- Utilized Git and GitHub for version control and collaborative development, participating actively in code reviews and Agile sprint cycles.
- Familiar with Docker for containerizing backend services during local development and testing phases.
